

Shevington Vale Primary School is looking into a lottery funded project. We are aiming to promote health and well-being within our community.

We would welcome your thoughts and ideas for what outdoor equipment you think would be most useful and how we can use this to improve community links.

The equipment would be used by pupils and by community groups, like the Brownies, who use our school as well as by after school groups and by the holiday clubs attended by children from various schools in the area.

Please take the time to comment, as all comments will improve our outcomes and allow us to develop the ideas that we have.

You can email ideas and views to:
